COOLPRENE**

**NEW PRODUCTS**

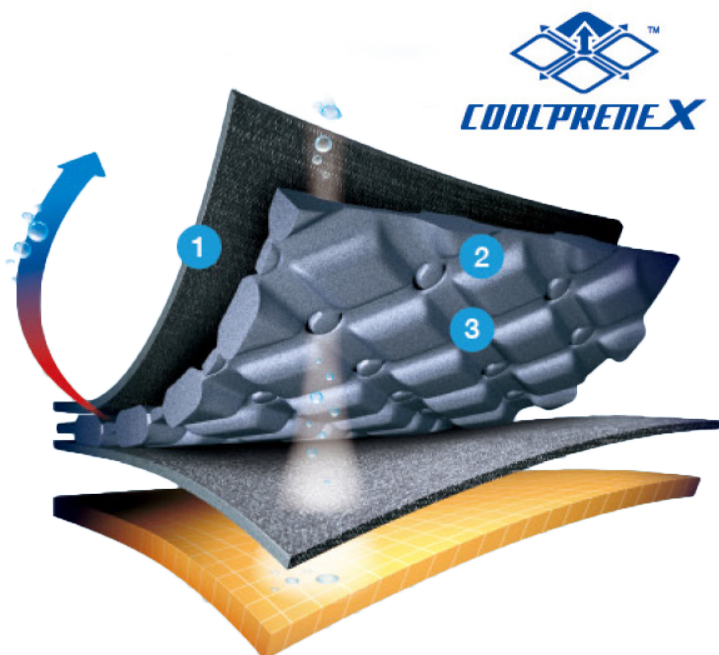

Dardo Orthopedique is proud to present LP Support's two new product lines, **CN (COOLPRENE™)** and **CA (COOLPRENE™ X)**, providing more efficient, durable and breathable products!

LP's exclusive **COOLPRENE™ X** technology is a thin yet durable material that provides optimal support. **COOLPRENE™ X**'s dynamic diamond grooves massage muscles as the body moves; a pumping action wicks away moisture and heat for optimal comfort.

1 - The diamond grooves of the **COOLPRENE™ X** push moisture and heat out and let cool air in, preventing discomfort when wearing the sleeve for a long time.

2 - Diamond grooves stretch with every movement for a dynamic fit.

3 - A massaging effect on the muscles is created during body movement; thus relieving muscle tension and discomfort.

## 733CN - SUPPORT DE GENOU

*Sizes: Regular or Extra Large | Color: Black*

LP 733CN KNEE SUPPORT, engineered with breathable COOLPRENE™ material, gives the knee joint and lower thigh muscles basic support and ensures the wearer's comfort.

Additional bilateral stays ensure superior support and protection. Adjustable hook-and-loop strap allows for easy application.

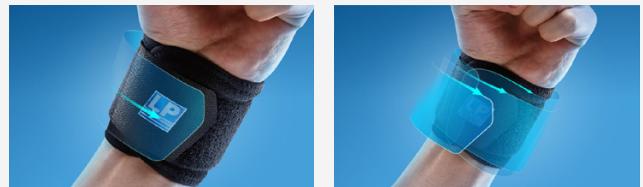

## 753CN - SUPPORT DE POIGNET

*Size: One size | Color: Black*

LP 753CN WRIST WRAP, engineered with breathable COOLPRENE™ material, gives the wrist basic support and ensures the wearer's comfort.

Adjustable hook-and-loop strap provides fully adjustable compression.

## 758CN - SOUTIEN DE GENOU

*Size: One size | Color: Black*

LP 758CN KNEE SUPPORT, engineered with breathable COOLPRENE™ material, gives the knee joint basic support and ensures the wearer's comfort.

Adjustable hook-and-loop straps allow for easy application.

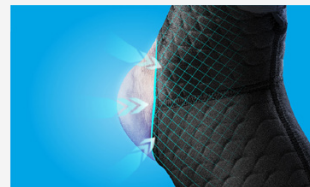

## 704CA - OPEN-HEEL

Sizes: *S, M, L, XL* | Color: *Black*

LP 704CA ANKLE SLEEVE, engineered with COOLPRENE™ X technology, keeps the ankle joint firmly supported while still allowing for a natural range of motion.

Open-heel construction and the adjustable tab improve fit and comfort.

## 757CA - FIGURE-8 STRAPPING

Sizes: *S/M, L/XL* | Color: *Black*

LP 757CA ANKLE BRACE, engineered with COOLPRENE™ X technology, keeps the ankle joint firmly supported while still allowing for a natural range of motion.

Additional compressive straps ensure superior support and protection.

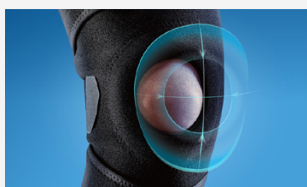

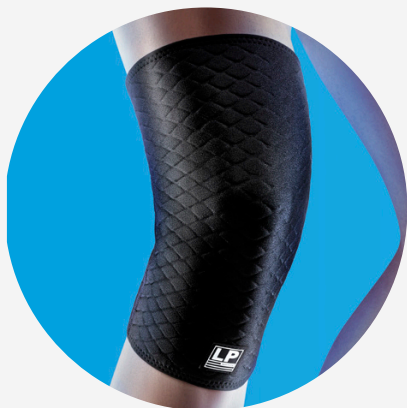

## FT15CA - OPEN-HEEL

Sizes: *S, M, L, XL* | Color: *Black*

LP FT15CA ANKLE SLEEVE is designed to provide better contoured, form-fitting support during ankle movement.

Strategically-placed COOLPRENE™ X reinforces the ankle joint and key muscles.

**706CA**

*Sizes: S, M, L, XL | Color: Black*

The LP 706CA knee sleeve, engineered with COOLPRENE™ X technology, keeps the knee joint firmly supported while still allowing for a natural range of motion.

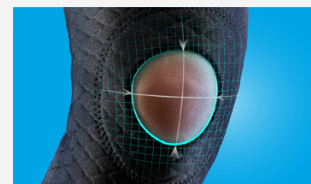

An easy-to-wear sleeve design offers light compression and mild support to the knee joint.

**708CA - OPEN PATELLA**

*Sizes: S, M, L, XL | Color: Black*

LP 708CA KNEE SLEEVE, engineered with COOLPRENE™ X technology, keeps the knee joint firmly supported while still allowing for a natural range of motion.

Open knee design keeps the patella in proper position, and delivers snug comfort around the kneecap.

**733CA - BILATERAL STAYS**

*Sizes: Regular or Extra Large | Color: Black*

LP 733CA KNEE BRACE, engineered with COOLPRENE™ X technology, keeps the knee joint and lower thigh muscles firmly supported while still allowing for a natural range of motion.

Additional bilateral stays ensure superior support and protection.

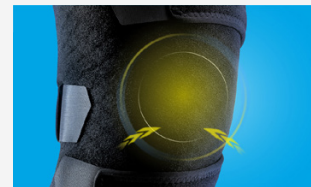

## 756CA

*Size: One size | Color: Black*

LP 756CA KNEE SUPPORT, engineered with COOLPRENE™ X technology, keeps the knee joint firmly supported while still allowing for a natural range of motion.

Wrap-around compressive straps and full patella coverage offer comprehensive joint support.

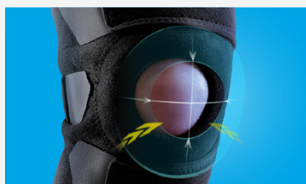

## 758CA - PATELLA SUPPORT RING

*Size: One size | Color: Black*

LP 758CA KNEE SUPPORT, engineered with COOLPRENE™ X technology, keeps the knee joint firmly supported while still allowing for a natural range of motion.

Wrap-around compressive straps ensure custom fit and superior support.

## 788CA - PATELLA SUPPORT RING

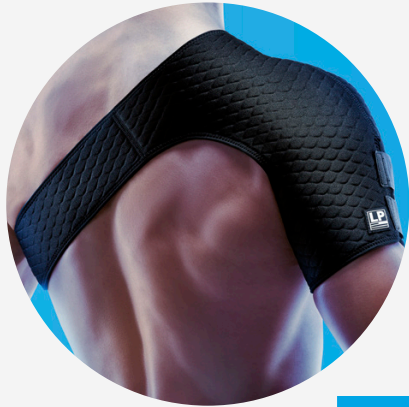

*Sizes: Regular or Extra Large | Color: Black*

LP 788CA KNEE BRACE, engineered with COOLPRENE™ X technology, keeps the knee joint firmly supported while still allowing for a natural range of motion.

Wrap-around compressive strap ensures custom fit and superior support.

**538CA**

*Sizes: S, M, L, XL | Color: Black*

LP 538CA SHOULDER SUPPORT, engineered with COOLPRENE™ X technology, keeps the shoulder firmly supported while still allowing for a natural range of motion.

Wrap-around compressive straps ensure custom fit and superior support.

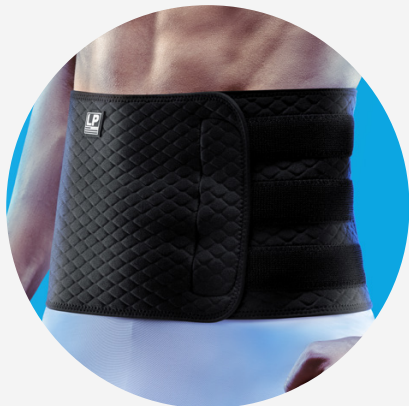

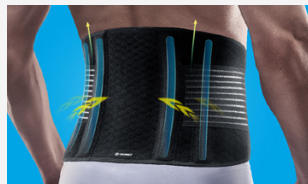

**573CA - BILATERAL COMPRESSIVE STRAPS**

*Size: One size | Color: Black*

LP 573CA BACK SUPPORT, engineered with COOLPRENE™ X technology, keeps the core area firmly supported while still allowing for a natural range of motion.

Additional metal stays and compressive straps along the waist strengthen the trunk and restrict excessive back movement.

**727CA - EXTRA WAIST SUPPORT**

*Size: One size | Color: Black*

LP 727CA BACK SUPPORT, engineered with COOLPRENE™ X technology, keeps the waist firmly supported while still allowing for a natural range of motion.

Additional metal stays along the waist strengthen the trunk and restrict excessive lower back movement.

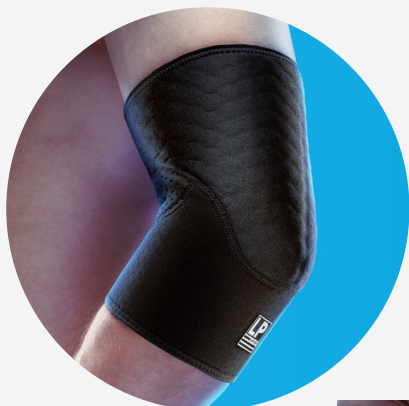

### 751CA - TENNIS/GOLF ELBOW

*Size: One size | Color: Black*

LP 751CA ELBOW WRAP, engineered with COOLPRENE™ X technology, keeps the elbow muscles firmly supported while still allowing for a natural range of motion.

Additional compression pad on the upper forearm redirects the stressful forces away from the area to minimize discomfort caused by tennis or golfer's elbow.

### FT55CA

*Sizes: S, M, L, XL | Color: Black*

LP FT55CA ELBOW SLEEVE is designed to provide better contoured, form-fitting support during elbow movement.

Strategically-placed COOLPRENE™ X reinforces the elbow joint and key muscles.

## 563CA - THUMB LOOP

*Size: One size | Color: Black*

LP 563CA WRIST SUPPORT, engineered with COOLPRENE™ X technology, keeps the wrist joint firmly supported while still allowing for a natural range of motion.

Additional metal stay limits thumb joint movement to help ease discomfort.

## FT35CA

*Size: One size | Color: Black*

LP FT35CA WRIST SUPPORT is designed to provide better contoured, form-fitting support during wrist movement.

Strategically-placed COOLPRENE™ X reinforces the wrist joint and key muscles.
