SPORTS MEDICINE

Model	Reference	Color	Sizes				Quantity
	601 <i>Knee Support</i>	White	S	M	L	XL	
<p><i>The LP Elasticated Knee Support reduces the pain and instability resulting from a minor injury or weak knee.</i></p> <p><i>It is made of quality surgical elastic and is an ideal elastic brace for support and compression.</i></p> <p><i>This elasticated knee support is part of our extensive range of knee supports and will allow you to continue athletic activity while also providing protection against further injury.</i></p>							
	602 <i>Thigh Support</i>	White	S	M	L		
<p><i>The LP Elasticated Thigh Support provides optimal protection for weak or injured thighs, and is an ideal elastic brace for support and compression.</i></p> <p><i>Medically approved and made of quality surgical elastic, it is comfortable to wear and designed to conform with the contours of the thigh so it won't slip or ride up.</i></p> <p><i>LP Thigh Support helps to minimise further injury while still permitting continued activity, and is suitable for all sports, athletic activities and everyday use.</i></p>							

	603		S	M	L	
	Elbow Support	White	Limited Stock			
	<p><i>LP Elastic Elbow Support provides firm support and helps relieve pain from weak, swollen or injured elbows. It helps conditions resulting from fatigue or overwork. The support provides protection against further injuries and is suitable for all sports, athletic activities and everyday use.</i></p> <p><i>It is particularly recommended for tennis and golfer's elbow.</i></p>					
	604		S	M	L	XL
	Ankle Support	White	Limited Stock			
	<p><i>Medically approved and comfortable to wear, its two-way stitching helps prevent and treat stress injuries and is particularly recommended for ankle sprains or strains. The LP Elastic Ankle Support is suitable for all sports, sporting activities and everyday use.</i></p>					
	605	White	S	M	L	
	Wrist Support	Left				
		Right				
<p><i>The LP Elasticated Palm Brace provides support and relieves pain from stiff, swollen or injured wrist.</i></p> <p><i>The unique design provides firm support for the maintenance of joint structures with gentle compression over the palm affording the right kind of protection for injured, weak or unstable palm conditions. This provides effective support to damaged ligaments or muscles.</i></p> <p><i>LP Palm Brace protects against further injury and is suitable for all sports, athletic activities and everyday use. It is designed to conform naturally to the contours of the palm and will not slip or ride up.</i></p> <p><i>It is available in left (L) and right (R) formats.</i></p>						
	622		S	M	L	XL
	Athletic Support	White				
	<p><i>The LP athletic support is a durable and comfortable support designed for the athlete. It is ideal for use during exercise, training or any sporting activity and provides support and lift to prevent injury.</i></p>					

	<p>623 Athletic Supporter</p>	<p>White</p>	<p>S</p>	<p>M</p>	<p>L</p>		
<p><i>The LP Athletic Supporter is combined with an impact and shatter resistant cup to offer durability and protection from impact.</i></p> <p><i>It provides support for use during exercise, training or any sporting activity, and the shatter proof cup is engineered with the lightest and strongest plastic available.</i></p>							
	<p>635 Calf Support</p>	<p>Tan</p>	<p>One Size</p>				
<p><i>LP Shin Wrap is made from a combination of extra strength elastic and transverse nylon providing long lasting and heavy duty support.</i></p> <p><i>The wrap offers effective support for strained muscles, and it is suitable for most sports, athletic activities or just everyday use.</i></p> <p><i>The starter loop allows the wrap to be pre-positioned for easy application, and the adjustable design of LP Shin Wrap fits most body sizes. The material is both durable and reusable.</i></p>							
	<p>701 Elbow Support</p>	<p>Tan Black</p>	<p>S</p>	<p>M</p>	<p>L</p>	<p>XL</p>	
<p><i>The LP Tennis Elbow Support is ideal for tennis elbow as it provides comfortable compression for weak or overstressed elbows.</i></p> <p><i>The support ensures maximum heat retention and provides uniform pressure against the muscles and tendons. The adjustable hook and loop strap can apply additional compression when needed.</i></p> <p><i>LP Tennis Elbow Support is made of the highest grade closed cell neoprene which is covered with stretch nylon on both sides for comfort. This makes it easy to slip on or off, and this support retains body heat to warm the muscles and increase blood circulation.</i></p>							

	702	Tan	S	M	L	XL	
	Elbow Support		Limited Stock				
	<p><i>LP Neoprene Elbow Support protects against scrapes and bruises and helps reduce pain from tendonitis and tennis elbow.</i></p> <p><i>It applies comfortable compression to weak or overworked elbows and applies therapeutic heat to weak elbow joints. The stretchy fabric inside ensures comfort while wearing and makes the support easy to put on or take off.</i></p>						
	703	Tan	S	M	L	XL	
	Wrist Support						
	<p><i>The LP Wrist Support helps to relieve pain through mild pressure of the injured wrist, and provides firm support around the weakened and strained area.</i></p> <p><i>Its adjustable hook and loop strap ensures a comfortable fit and stabilisation during activities. The support also minimises the chances of further injuries.</i></p> <p><i>The LP Wrist Support is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the wrist and increase blood circulation.</i></p>						
	704	Tan	S	M	L	XL	
	Ankle Support		Limited Stock				
	<p><i>This high-quality neoprene ankle support provides support and compression to weak ankle joints, while helping to reduce swelling and stiffness after injury.</i></p> <p><i>The open toe and heel design allows for a full range of movement, and the stretchy fabric inside ensures comfort while wearing, making the support easy to put on or take off. It fits comfortably with any type of sports or street shoe.</i></p>						

	705 Thigh Support	Tan	S	M	L	XL		
	<p><i>The LP Thigh Support provides heat retention, compression and support to the quadriceps and hamstring muscles so it is ideal for people recovering from pulled muscles in these areas. It also helps to reduce pain from tendinitis.</i></p> <p><i>The stretch fabric inside ensures comfort during wear and makes the support easy to slip on or off.</i></p> <p><i>This LP Thigh Support is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the thigh and increase blood circulation.</i></p>							
	706 Knee Support	Tan Black	S	M	L	XL	XXL	
	<p><i>The LP Knee Support Closed Patella provides firm support and uniform compression for weak or overstressed knees. It is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort.</i></p> <p><i>Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the knee joint and increase blood circulation.</i></p> <p><i>The LP Knee Support Closed Patella is helpful for post-operative knee problem, strains, arthritis and protection against abrasions.</i></p> <p><i>It is designed to fit neatly and comfortably under clothing, and is easy to slip on or off.</i></p>							
	707 Knee Support	Black	S	M	L	XL		
	<p><i>The LP Knee Support with Pad features an additional 1/8" oval pad that enhances knee protection and retains body heat. It is made from the highest quality closed cell neoprene, covered with stretch nylon on both sides for greater comfort.</i></p> <p><i>The LP Knee Support with Cushion is useful for post-operative knee problems, strains, arthritis and protection against abrasions. It is designed to fit snugly and comfortably under clothing, and is easy to put on or take off.</i></p>							

	708 Knee Support	Black	XS	S	M	L	XL	XXL	
	<p><i>The LP Open Patella Knee Support provides compression for weak or overloaded knees and includes an exclusive reinforced patella stabilizer that prevents excessive patella displacement and movement.</i></p> <p><i>It provides compression for weak or overloaded knees, and the additional 1/8" oval pad provides additional padded protection to the joint. The open patella design prevents excessive pressure on the patella.</i></p> <p><i>The LP Open Patella Knee Support helps protect against further injuries and it is also useful for post-operative knee problems, strains, arthritis and protection against abrasions.</i></p>								
	709 Knee Support	Tan Black	XS	S	M	L	XL	XXL	
	<p><i>The LP Knee Stabiliser with Buckles enhances knee stability and provides even compression to an injured or recovering knee. It includes two adjustable hook and loop straps which allow adjustment for additional compression when required and ensures stabilization during activities</i></p> <p><i>The medial and lateral spiral stays provide extra support and stability, and the additional neoprene circle pad around the patella provides added protection and stabilisation to prevent patella displacement.</i></p> <p><i>This stabiliser is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the knee joint and increase blood circulation.</i></p>								

	710 <i>Knee Support</i>	Tan Black	XS	S	M	L	XL	XXL	XXXL	
	<p><i>The LP Hinged Knee Stabilizer features metal hinges that provide support and stability to the medial and lateral ligaments.</i></p> <p><i>Dual hook-and-loop straps allow adjustment for additional compression if needed and provide stabilization during activities. The additional circular neoprene pad around the patella provides padded protection and stabilization to prevent patella displacement.</i></p> <p><i>This knee stabilizer is part of our extensive range of knee braces and is made from the highest quality closed cell neoprene, covered with stretch nylon on both sides for added comfort.</i></p>									
	712 <i>Trimmer Shorts</i>	Black	S	M	L	XL				
	<p><i>The LP Trimmer Shorts are designed for comfort, support and protection against groin, hamstring and thigh injuries.</i></p> <p><i>The shorts provide a convenient way to trim the waist, hips and thighs while helping to prevent pulls and strains by keeping the groin muscles warm with natural body heat. They can easily be worn under clothing and the drawstring can be adjusted to fit most sizes.</i></p>									
	718 <i>Calf Support</i>	Black	S	M	L	XL				
	<p><i>The LP Shin and Calf Guard provides compression and support to the shin and calf. It is recommended for soft tissue injuries of the lower leg, including shin splints.</i></p> <p><i>It is designed to fit snugly above the ankle, providing warmth and support to the lower shin and achilles area. The stretchy fabric inside ensures comfort while wearing and makes the sleeve easy to put on or take off.</i></p>									

	720		XS	S	M	L	XL	XXL		
	Knee Support	Black	Limited Stock							
<p><i>The LP Knee Stabilizer (with Vertical Buttress) includes two medial and lateral metal hinges for support as well as a vertical buttress that stabilizes the patella and provides additional protective padding. The pressure on the kneecap and the extra pad compress the quadriceps tendon to prevent tendinitis.</i></p> <p><i>This stabilizer is recommended for post-operative ligament repairs, and a comfortable fit is ensured by the hook-and-loop sidewalls which provide stabilization during activities.</i></p>										
	721		XS	S	M	L	XL	XXL		
	Knee Support	Tan (L)								
		Black (L)								
		Tan (R)								
		Black (R)								
<p><i>The LP Patella Stabilizer is recommended for the treatment of knee injuries in which stabilization of the patella is the primary concern. It helps relieve pain from tendonitis and arthritis by improving medial compression to improve knee stability.</i></p> <p><i>The open patella design relieves pressure on the patella and an additional pad provides additional compression and internal J-shaped stabilization. Medial and lateral spiral stays on either side of the knee allow limited flexion with rotational stability, while two neoprene traction straps above and below the patella provide additional support.</i></p> <p><i>It is available in left (L) and right (R) formats.</i></p>										

	<p>722 Ankle Support</p>	<p>Tan</p> <p>Left</p> <p>Right</p>	<p>S</p>	<p>M</p>	<p>L</p>	<p>XL</p>	
	<p><i>The LP Ankle Support with zipper is effective for minor athletic related injuries and weak or painful joint disorders. It helps the ankle to heal faster following injury and is recommended for tendonitis, muscle strains, ligament strains or bursitis.</i></p> <p><i>The open toe and heel design allows full range of movement and the additional zipper allows for easy application. The support will help with the reduction of swelling and restoration of comfort following injury and the adjunctive treatment of minor achilles tendon injuries.</i></p> <p><i>The LP Ankle Support with zipper is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the ankle and increase blood circulation.</i></p>						
	<p>723 Elbow Support</p>	<p>Black</p>	<p>S</p>	<p>M</p>	<p>L</p>	<p>XL</p>	<p>Limited Stock</p>
<p><i>The LP Tennis Elbow Support with Strap provides comfortable compression for weak or overloaded elbows and is recommended for the prevention and control of bursitis and tendonitis.</i></p> <p><i>The adjustable compression strap reduces tension in the wrist and finger extensors during gripping, and the support allows limited movement after injury or surgery to prevent stiffness.</i></p> <p><i>It also provides complete support to the elbow region in conjunction by reducing the insertion of the extensor carpi radialis tendon.</i></p>							

	724 Elbow Support	Tan	S	M	L	XL		
<p><i>The LP tennis elbow support supports and stabilizes the elbow joint and protects it from overloads or possible injuries. The elbow support is very easy to put on. The high-quality finish of the bandage (e.g. Edges) promotes high wearing comfort, so that prolonged wearing is possible without any problems.</i></p> <p><i>The quality of the processed material (neoprene) ensures that the bandage remains very adaptable but robust. The soft and skin-friendly material feels comfortable on the skin and also allows you to wear it for a long time (can also be used overnight). Your freedom of movement is never severely restricted.</i></p> <p><i>It is recommended for symptoms of overload, as support after muscle injuries, for minor sprains or bruises and for effusions in the joint area, for the prevention of possible injuries.</i></p>								
	725 Wrist Support	Tan	XS	S	M	L	XL	
<p><i>The LP Wrist Splint provides support for weak or stiff wrists, and aids in the treatment of carpal tunnel syndrome.</i></p> <p><i>The splint includes a spoon stay which can be removed as the healing process progresses, and provides comfortable compression for a weak or overstressed wrist.</i></p> <p><i>The LP Wrist Splint is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the wrist and increase blood circulation.</i></p>								
	726 Wrist Support	Black	One Size					
<p><i>The specially designed LP wrist wrap provides comfortable compression and support for a weak, stressed wrist, while the wraparound design allows movement of the thumb and fingers.</i></p> <p><i>The wrap aids in the treatment and prevention of injuries, and is ideal when compressive support and therapeutic heat retention are needed. Universal size means easy fit for everyone.</i></p>								

	728		S	M	L	XL		
	Ankle Support	Tan						
		Black						
<p><i>The Ankle Support with Strap is specially designed to provide comfortable relief from pains associated with arthritis characterized by swelling and severe pain, thinning of the cartilage and reduces the ability of tissues to stretch along with reduced production of synovial fluid in a joint capsule.</i></p> <p><i>It has a unique 2 inch removable surgical elastic strap allows adjustable compression and support for ankle joint and ligaments. It helps prevent ankle strain and reduces swelling and stiffness. It fits like an open-toe, and open-heel sock</i></p>								
	734		XS	S	M	L	XL	XXL
	Knee Support	Tan						
		Black						
<p><i>The four strong elastic straps of this LP knee stabilizer provide additional compression to the patellar tendon. This helps relieve the pain and inflammation of the tibial tubercle associated with Osgood Schlatter disease, and also helps relieve pain caused by tendinitis and arthritis.</i></p> <p><i>The open patella design relieves pressure on the patella and an additional circular cushion provides padded protection and stabilization to prevent patella displacement. Medial and lateral spiral stays on either side of the knee allow limited flexion with rotational stability, while two adjustable hook-and-loop straps provide a comfortable fit and stabilization during activities.</i></p> <p><i>The LP Knee Stabilizer with Elastic Straps is part of our extensive range of knee braces and is made from the highest quality closed cell neoprene, covered with stretch nylon on both sides for added comfort.</i></p>								
	751		One Size					
	Elbow Support	Tan						
<p><i>The LP Tennis Elbow Support is designed to relieve pain associated with elbow injuries, weakness, tennis elbow and golfer's elbow.</i></p> <p><i>The silicone pad provides additional pressure on the forearm, relieving pain resulting from strained muscles in the arm during gameplay. The adjustable hook-and-loop closure allows you to apply greater tension if necessary.</i></p>								

	752 Wrist Support	Tan	S	M	L	XL	
	<p><i>The Wrist/Thumb Support is recommended in wrist sprain, palm injury, and thumb pain. It is helpful in keeping the thumb in the right position and avoid any further damage to the injury.</i></p> <p><i>It is used to facilitate support and stability to the wrist and is useful for painful, swollen, or weak joints.</i></p> <p><i>Thermal wrist support for tenosynovitis, carpal tunnel syndrome, and general wrist support. Provides maximum comfort, healing warmth and therapeutic support.</i></p>						
	753 Wrist Support	Tan Black	One Size				
	<p><i>The LP Wrist Support helps relieve pain through pressure on the injured wrist and provides firm support around the weakened and strained area.</i></p> <p><i>This support will help minimize the risk of future injuries, and the adjustable hook-and-loop strap ensures a comfortable fit and stabilization during activities. Universal size for easy fit.</i></p>						
	754 Shoulders Support	Black	S	M	L	XL	
	<p><i>The LP Support shoulder support is a functional shoulder support that provides optimal stability without hindering mobility. This makes the shoulder brace also very suitable for that extra support during sports or during work.</i></p> <p><i>The LP Support shoulder brace provides warmth to the shoulder joint, protects your shoulder from re-injury and functions optimally in cases of overload, osteoarthritis/wear and swelling.</i></p> <p><i>In addition, the shoulder brace is equipped with a Velcro fastener which ensures, among other things, optimal fit and wearing comfort. Due to all these unique properties, this shoulder support has been used with great success for years by, among others, top athletes for optimal support during sports, but also for optimal support during work.</i></p>						

	<p>756 Knee Support</p>	<p>Tan Black</p>	<p>One Size</p>	
<p><i>The LP Closed Patella Knee Support provides firm support and uniform compression for weak or overstretched knees.</i></p> <p><i>The unique velcro design fits most knee sizes, and the support provides comfortable compression to relieve pain resulting from strains, sprains, arthritis or tendonitis.</i></p> <p><i>The LP Closed Patella Knee Support is made from the highest grade closed cell neoprene, covered with stretch nylon on both sides for comfort. Neoprene is the ultimate material for compression and heat retention, and this support retains body heat to warm the knee joint and increase blood circulation.</i></p>				
	<p>758 Knee Support</p>	<p>Black</p>	<p>One Size</p>	
<p><i>The LP Open Patella Knee Support provides compression for weak or overstretched knees.</i></p> <p><i>The open patella design relieves pressure on the patella and the unique velcro design means this support fits almost any knee size with adjustable support.</i></p> <p><i>The LP Open Patella Knee Support is part of our extensive range of knee supports and is made from the highest quality closed cell neoprene, covered with stretch nylon on both sides for added comfort.</i></p>				
	<p>794 Hot and Cold Wrap</p>	<p>Black</p>	<p>One Size</p>	
<p><i>The LP Hot and Cold Wrap comes with the LP Hot and Cold Pack for cryotherapy and heat therapy.</i></p> <p><i>This wrap is suitable for the elbow, thigh, knee and ankle, with the Hot and Cold Pack placed in the wrap before use. This provides heat therapy to help soothe sore muscles, tension and pain.</i></p> <p><i>The wrap is convenient and maintains mobility during treatment, and prevents skin burns and frostbite from direct contact. It is made of the highest quality closed cell neoprene covered with stretch nylon on both sides for comfort.</i></p>				

	901		S	M	L	XL		
	Clavic Support	White						
<p><i>The LP Clavic Brace promotes healthy posture and is an excellent aid in correcting poor posture and shoulder slump. It provides a constant reminder to sit, stand and walk with back straight and the shoulders back.</i></p> <p><i>The brace is ideal for post clavicle fracture, as it immobilises clavicles to aid healing. It allows normal movement without cutting or binding, and the hook and loop closure allows the brace to be put on and removed without assistance.</i></p>								
	902		XS	S	M	L	XL	XXL
	Back Support	Tan						
<p><i>The Sacrolumbar LP support is a back support system, equipped with 4 flexible, retractable and adjustable rods, which attaches comfortably and provides the lumbar support necessary to relieve and prevent pain.</i></p> <p><i>It helps prevent back pain while providing spinal support and relieves muscle discomfort.</i></p> <p><i>Made from breathable elastic foam, it also helps relieve lower back pain caused by sacroiliac strains. Equipped with six foldable ribs and a hook-and-loop fastener to adjust the width of the support to the desired tension.</i></p>								
	903		XS	S	M	L	XL	XXL
	Back Support	Tan						
<p><i>Designed and equipped with 4 soft, retractable and adjustable rods to relieve pain associated with sacroiliac and lumbar joint dysfunction. Helps prevent sprains of supporting ligaments.</i></p> <p><i>Two foldable ribs and four removable aluminum ribs at the back for added stability.</i></p>								
	904	Tan	S	M	L	XL		
	Wrist Support	Left						
		Right						
<p><i>Made of dual tension elastic to provide firm support for minor wrist sprains and strains or after cast removal.</i></p> <p><i>The Malleable Spoon Splint for Volar Arch Support for Carpal Tunnel Syndrome can be removed for a personalized contour by a doctor or therapist.</i></p> <p><i>It is available in left (L) and right (R) formats</i></p>								

	906		S	M	L	XL	
	Support cervical	White					
		Tan					
<p><i>The LP Cervical Collar helps relieve pain associated with neck strains and sprains. It is made of 17mm medium density foam covered in cotton jersey, with a contoured cut for the chin. A hook-and-loop closure at the back is included for easy adjustment. The LP cervical collar largely prevents flexion and extension of the cervical spine and can also be used at night for postural correction. The collar also provides therapeutic support after a neck injury and can help shorten recovery times.</i></p>							
	912		S	M	L	XL	XXL
	Back Support	Black					
	<p><i>The LP Industrial Back Support includes flexible stays which help to relieve pressure and stress on the lower back associated with frequent heavy lifting in the workplace. The support also features 4" side pulls for even compression and support, as well as criss-cross shoulder straps, adjustable suspenders and Velcro closure for a comfortable fit.</i></p> <p><i>The LP Industrial Back Support can be used for both lumbar and lumbosacral regions of the spine, and the adjustable design fits most body sizes.</i></p>						
	951		S	M	L	XL	
	Knee Support	Tan					
	<p><i>The LP Support knee support is for very mild knee problems and is designed to keep the knee warm. It has recently been upgraded into the Super Ortho knee support (this lasts longer and is also more comfortable). Both knee pads are made from a ventilated, comfortable and elastic material that provides plenty of warmth and support without being uncomfortable.</i></p> <p><i>The knee brace can therefore be worn comfortably all day, so that the knee brace functions optimally for years with (blood) circulation problems and swelling.</i></p> <p><i>The LP Support knee support helps reduce pain by providing correct pressure distribution and effective support to injured ligaments and muscles.</i></p>						

	952	Tan	S	M	L	XL	
	Thigh Support						
<p><i>The LP Support thigh support is made from a ventilated and comfortable material, which provides plenty of warmth and support without being uncomfortable. LP Support thigh supports prevent injuries and help reduce pain by providing correct pressure distribution and effective support to the groin muscles, hamstrings or weak, injured or thigh muscles.</i></p> <p><i>The support is therefore very suitable both preventatively and during rehabilitation of, for example, minor strains, bruises and circulation problems.</i></p>							
	953	Tan	S	M	L	XL	
	Elbow Support						
<p><i>The LP Support elbow wrap is made of a ventilated, comfortable and elastic material that provides plenty of warmth and support without being uncomfortable. As a result, the LP Support elbow bandage is particularly comfortable and has an optimal fit.</i></p> <p><i>The LP Support elbow bandage can therefore be worn comfortably all day, so that the elbow support works optimally for years with weak and overloaded muscles and is also ideal for reducing swelling and pain in case of bursitis.</i></p> <p><i>The LP Support elbow brace has therefore been used with great success for years, particularly for bursitis.</i></p>							
	954	Tan	S	M	L	XL	
	Ankle Support						
<p><i>The ankle support provides firm support for the weak ankle. Helps prevent ligament sprains and relieve pain associated with tendonitis.</i></p>
